

# BON ⚡ SCOTCH

**Rock music journalist Torgrim Øyre («P3» / «Garage» / «Dagbladet»),  
October -07:**

*"On the Norwegian National Day (17<sup>th</sup> of May) this year the AC/DC cover band, Bon Scotch, entered the stage of «Garage» in Bergen. Since then, the world has not been the same. People were awestruck, laughing, screaming and singing along as if they had gone nuts. What a firework! Now they're back. Brilliant, brilliant!"*

*"You'd have to search a very long time for a more authentic sound. Probably the best cover band in the world. Bon Scott lives!"*

## **The Band:**

Bon Scotch is a tribute band consisting of a small group of die-hard metal heads whose main mission in life is to bestow upon the audience the sound and stage show of AC/DC's first line-up! Their aim has been to achieve the punch and charisma that was so evident in the original band during the late 70's, and after years of practice and hard work they seem to have nailed it! So to everyone who has been kicking him-or herself for missing the real AC/DC in concert, here is your chance to experience the next best thing!
